

A world map showing the number of people per country in 2015. The map uses a color scale from red (low population) to orange (high population). The data is as follows:

Country	Population (2015)
United States	244,060
Canada	23,226
Mexico	126,995
Brazil	208,345
Argentina	44,592
Chile	16,464
Colombia	4,530
Venezuela	28,107
Peru	31,894
Ecuador	16,894
Guatemala	16,894
Bolivia	11,385
Paraguay	7,357
Uruguay	3,946
Argentina	44,592
Chile	16,464
Colombia	4,530
Venezuela	28,107
Peru	31,894
Ecuador	16,894
Guatemala	16,894
Bolivia	11,385
Paraguay	7,357
Uruguay	3,946
Argentina	44,592
Chile	16,464
Colombia	4,530
Venezuela	28,107
Peru	31,894
Ecuador	16,894
Guatemala	16,894
Bolivia	11,385
Paraguay	7,357
Uruguay	3,946
Argentina	44,592
Chile	16,464
Colombia	4,530
Venezuela	28,107
Peru	31,894
Ecuador	16,894

Year	CO2 Emissions
1970	67,324
1971	72,870
1981	74,498
1990	85,631
1991	88,759
1992	87,648
1999	93,999
2000	90,524
2001	95,821
2002	104,331
2016	124,780

The chart displays CO2 emissions in million tonnes for India and the United States from 1980 to 2020. India's emissions (purple line) show a steady increase from 234 million tonnes in 1980 to 2,626 million tonnes in 2020. The United States' emissions (red line) show a peak around 2005 at 5,267 million tonnes, followed by a decline to 5,339 million tonnes in 2020.

Country	Year	CO2 Emissions (million tonnes)
India	1980	234
India	1990	656
India	2000	1,060
India	2010	2,186
India	2020	2,626
United States	1980	4,429
United States	2005	5,267
United States	2020	5,339
